

# Leather Orthotics

Customize with Your Embossed Logo

## Promote Your Business - Retain Your Customers

with our High Quality Leather Orthotics Custom Embossed with Your Practice Name and Logo

Our Leather Orthotic Insoles combine the comfort of premium five-ounce genuine leather and high density cushioning foam with semi-rigid arch support and motion control.

### FEATURES:

#### Customize with Your Embossed Name and Logo

- Promote your business with a top quality product and retain customers for repeat orders.

#### Premium Leather Top Cover

- Supple, breathable leather conforms to the foot with use for even greater comfort. Helps prevent and relieve calluses on the forefoot and toes.

#### High-Density Poron Cushion Foam

- Durable foam backing has high rebound and is resilient to long term wear.

#### Semi-Rigid Plastic Arch Support Shells

Gives arch support to help relieve pain and stress. Semi-rigid polypropylene shells stabilize

the foot, controlling excessive motion and rotation to reduce the stress on the knee and hip joints. Shells can be heat molded using a heat gun.
